

Half Yearly Results 30 June 2021

26 August 2021

LOMBARD BANK MALTA p.l.c. HALF-YEARLY RESULTS FOR 2021

- Group Profit Before Tax was €5.4m (H1 2020: €5.0m).
- Profit Attributable to Equity Holders was €3.2m (H1 2020: €3.1m).
- Group Operating Income was €32.7m (H1 2020: €28.9m).
- Bank Cost-to-Income Ratio stood at 60.2% (H1 2020: 59.6%).
- Customer Deposits stood at €982.5m (FYE 2020: €941.1m).
- Loans & Advances to Customers reached €644.3m (FYE 2020: €621.1m).
- Group Total Assets stood at €1,177.5m (FYE 2020: €1,131.0m).
- Bank Advances to Deposits Ratio was 65.3% (FYE 2020: 65.5%).
- Total Capital Ratio stood at 15.1% (FYE 2020: 15.8%).

Directors' Report

Considering the continued uncertainty due to COVID-19 and persistent pressures on interest rate margins from low and negative interest rates, the performance of the Lombard Group during the first half of 2021 is considered satisfactory.

The Bank continued implementing its strategy of prudent growth by investing in its physical presence, technology and human resources. Supported by a strong financial position, the Bank saw further growth in relationships and market share both in its commercial and home loan lending portfolios, as well as deposits. Pressures on costs were inevitable though these were prudently managed. Business continued to be undertaken in line with the Bank's straightforward non-complex and traditional banking model, while support continued to be provided to customers in these challenging times. The Bank's balance sheet fundamentals remain strong.

MaltaPost, the Bank's main subsidiary remained well positioned to weather the challenges resulting from the Pandemic and the accelerated reduction in traditional Letter Mail, by maximising all revenue potential through changes in its business mix and by implementing strict cost containment measures.

H1 2021 results demonstrate the strength of our strategy and business model. It is also a testament to the ability of our staff members to quickly adapt to the changed circumstances so as to continue delivering efficient service to customers and the community, underpinned by our commitment to provide a personalised service.

Against this background the Group registered a Profit before Tax of €5.4m, up from €5.0m for the same period last year while the Bank's Profit before Tax was €4.0m, up from €3.6m in H1 2020.

Loans and Advances to Customers as well as Customer deposits rose by 4%. Net Interest Income for the Group at €10.0m was 8% higher compared to the previous year. Higher interest revenues generated from increased credit activity offset the effect of pressure on interest margins from persistent low interest rates.

The Bank continues to rely on a diversified funding base for its liquidity, which over the years has proven to be relatively stable.

Fee and commission income for the Group was up by 4% resulting from general increases across the board.

Group Employee Compensation and Benefits rose by 2% in line with the Group's ethos to employ suitably qualified staff to support its growth initiatives. While operating costs remain under control, costs associated with obligations to satisfy regulatory requirements and enhance Compliance capabilities continued to increase.

Increases in Expected Credit Losses (ECL) as defined and determined by International Financial Reporting Standard 9 (IFRS9) during the period were driven by loan portfolio growth as well as application of expert judgement in respect of industry-specific exposures adversely hit by the ongoing uncertain economic situation. It is encouraging to note that the majority of those personal customers who benefitted from capital and interest moratoria have returned to pre-concession performance. The resultant charge for 'Credit Impairment Losses' as determined by IFRS 9 for the six months under review, at ϵ 0.9m was slightly lower compared to ϵ 1.1m in the corresponding period last year. The Bank will continue to closely monitor its exposures in light of developments so as to accordingly align the 'Expected Credit Loss' as determined by IFRS 9.

Both Common Equity Tier 1 Ratio (CET1) as well as Total Capital Ratio stood at 15.1%, the Regulatory minimum in terms of Regulation (EU) No 575/2013 being 4.5% and 8.0%, respectively.

Bank Advances to Deposits Ratio was 65.3% (FYE 2020: 65.5%), indicative of a healthy liquidity buffer.

Looking ahead, we shall be mindful of the continued downside risks associated with COVID-19 and the effects and consequences of the Financial Actions Task Force's (FATF) decision to add Malta to the list of jurisdictions under increased monitoring - both factors bound to condition the performance outlook for the second half of the year. Despite these considerations, we remain optimistic that supported by strong fundamentals and a time-tested, sound business model, we continue on our journey of prudent growth, while remaining agile so as to meet with the everchanging needs of our customers and thereby continue to provide value-added to all our stakeholders.

Asset encumbrance

Banking Rule 07 transposed the provisions of the EBA Guidelines on Disclosure of Encumbered and Unencumbered Assets (EBA/GL/2014/03) and introduced the requirement to disclose information about asset encumbrance.

This disclosure is meant to facilitate an understanding of available and unrestricted assets that could be used to support potential future funding and collateral needs. An asset is defined as encumbered if it has been pledged as collateral against an existing liability, and as a result is no longer available to the group to secure funding, satisfy collateral needs or be sold to reduce the funding requirement.

The disclosure is not designed to identify assets which would be available to meet the claims of creditors or to predict assets that would be available to creditors in the event of a resolution or bankruptcy.

Encumbered and unencumbered assets

| | 13,590 | 13,590 | 1,093,441 | 1,093,441 |

Lombard Bank does not encumber any collateral received. As at 30 June 2021, the Bank did not have any outstanding liabilities associated with encumbered assets and collateral received.

The Bank undertakes the following types of encumbrance:

- i. Pledging of a deposit with the Central Bank of Malta in favour of the Depositor Compensation Scheme.
- ii. Pledging of Malta Government Stocks held in terms of Directive No. 8 (Chapter 204 of the Central Bank of Malta Act) as security for a facility not currently utilised.

Explanatory Notes

1. Reporting Entity

Lombard Bank Malta p.l.c. is a credit institution incorporated and domiciled in Malta with its registered address at 67, Republic Street, Valletta. The condensed interim financial statements of the Bank as at end of the six months ended 30 June 2021 include the Bank, subsidiaries and equity-accounted investee (together referred to as 'the Group').

The audited financial statements of the Group as at and for the year ended 31 December 2020 are available upon request from the Bank's registered office and are also available for viewing on its website at https://www.lombardmalta.com/en/financial-results.

2. Basis of preparation

The condensed consolidated interim financial information for the six months ended 30 June 2021 has been prepared in accordance with International Accounting Standard 34 - 'Interim Financial Reporting'. These include the comparative statements of financial position information as of 31 December 2020 and the comparative statements of profit or loss, statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows information for the period ended 30 June 2021. The interim financial information should be read in conjunction with the annual financial statements for the year ended 31 December 2020, which have been prepared in accordance with International Financial Reporting Standards as adopted by the EU.

The condensed interim financial information has been extracted from the Bank's unaudited half yearly financial statements. It has not been subject to an audit in accordance with the requirements of International Standards on Auditing nor to a review in accordance with the requirements of ISRE 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'.

No related party transactions were undertaken during the period 1 January to 30 June 2021 that had a material effect on the performance of the Group.

3. Accounting policies

The accounting policies applied are consistent with those of the annual consolidated financial statements of Lombard Bank Malta p.l.c. for the year ended 31 December 2020, as described in those financial statements.

Standards, interpretations and amendments to published standards effective in 2021

In 2021, the Group adopted amendments and interpretations to existing standards that are mandatory for the Group's accounting period beginning on 1 January 2021. The adoption of these revisions to the requirements of IFRSs as adopted by the EU did not result in changes to the Group's accounting policies impacting the Group's financial performance and position.

Standards, interpretations and amendments to published standards that are not yet effective

There were no new standards, amendments and interpretations to existing standards which are mandatory for accounting periods beginning after 1 January 2021 that were published by the date of authorisation for issue of this financial information and which could have a possible significant impact on the Group's financial statements in the period of initial application.

4. Financial instruments subject to expected credit losses accounted for in line with IFRS 9

The following is a summary of financial instruments to which impairment requirements in IFRS 9 were applied for the Bank.

5. Assumptions, judgements and credit risk in a COVID-19 scenario

As set out in the Annual Report 2020 under 'Accounting estimates and judgements' (page 112), the measurement of the Expected Credit Loss allowance for financial assets measured at Amortised cost and Fair value through Other Comprehensive Income (FVOCI) is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour.

The COVID-19 pandemic gave rise to levels of uncertainty that required increased use of estimation and judgement, especially in relation to effects that the pandemic will be having on the local and international economy. Judgement in this context, to name a few, would include assumptions as to duration of the pandemic, change in collateral value, central support to business, availability of medical facilities and solutions and level of response to central authority directives. The situation is still evolving from last year and uncertainty remains of the full impact on the economy. Economies started to open up gradually this year and with the easing of restrictions and progressing of vaccination programmes a return to a 'normal' post-pandemic activity appears to be under way.

Stressed probabilities of default (PDs) used in the sectorial macroeconomic variables were adjusted to reflect the Central Bank of Malta data. At the reporting date the risks associated with the Bank's financial assets remained well mitigated by the assets' underlying quality and low loan to value. The Bank will continue to closely monitor its exposures in the light of developments so as to align the Expected Credit Loss accordingly.

The methodology used for the calculation of the ECL is elaborated in the Annual Report 2020 on pages 63 to 71 and has not changed since.

In relation to retail portfolios, SICR is generally determined on the basis of delinquency related indicators since less information is available at asset level to enable the timely identification of a SICR. In this respect, a set of criteria were established to determine if borrowers which were granted a general payment moratorium exhibited signs of SICR or Unlikeliness-to-Pay (UTP). Such criteria includes whether the COVID-19 pandemic negatively affects the level of income of the borrower to the extent that the repayment ability of the borrower is jeopardised and whether the economic sector in which the borrower is employed is severely affected. With respect to borrowers who have not requested a moratorium, the Bank continued to apply rigorously its credit assessment and oversight processes, which include monitoring of arrears. Retail borrowers were considered to exhibit signs of SICR and consequently downgraded to Stage 2 if they met the criteria of repayments being past-due by more than 30 days and other qualitative criteria, including but not limited to actual or potential loss of personal income.

In relation to the corporate portfolio, the Bank assessed all borrowers which were granted a general payment moratorium. As part of these credit assessments, judgement is exercised in evaluating all relevant information on indicators of impairment, particularly where factors indicate deterioration in the financial condition and outlook of borrowers affecting

their ability to pay. As part of the ongoing credit review process, the Bank also assessed whether potential heightened credit risk factors exists (SICR or UTP) from exposures not subject to a general payment moratoria. Such assessment was based on the performance of the economic sector to which the borrower belongs.

On 13 April 2020 the Central Bank of Malta issued Directive 18 (in terms of Legal Notice 142) specifying parameters for granting of COVID-19 measures and other Government guaranteed assistance.

The following assistance was offered by the Bank to its borrowing customers in response to the COVID-19 pandemic.

As at 30 June 2021, 96 obligors (Dec 2020: 96 obligors) had been granted moratoria in respect of gross exposures amounting to €93.9 million (Dec 2020: €78.6 million) which moratoria met the criteria for a general payment moratorium as established within Directive No. 18 and the EBA guidelines.

As at 30 June 2021, outstanding gross loans and advances subject to general payment moratoria amounted to €16.1 million (Dec 2020: €65.7 million), of which €15.4 million (Dec 2020: €0.5 million) are classified as Stage 2 and €0.5 million (Dec 2020: €0.05 million) are classified as Stage 3.

Out of the outstanding gross loans and advances subject to general payment moratoria, €0.1 million (Dec 2020: €12.4 million) relate to retail mortgage customers. In order to earmark obligors experiencing a significant increase in credit risk and estimate the impact of delayed emergence of defaults in view of these moratoria, and accordingly estimate the ECL referred to above, the Bank assessed these exposures by reference to specific criteria established by management (as set out in Note 2.3.4.1 of Annual Report 2020). In respect of corporate exposures amounting to €15.9 million (Dec 2020: €52.1 million), the Bank assessed and individually rated each borrower requesting a general payment moratorium on the basis of recently obtained management information, including forecasts.

During 2020 the Bank also confirmed its participation in the Malta Development Bank COVID-19 Guarantee Scheme, whereby the risk of newly originated loans under the scheme to viable businesses experiencing liquidity pressures resulting from the effects of the pandemic are mitigated by a government guarantee.

In this respect, as at 30 June 2021, newly originated gross loans subject to the Malta Development Bank COVID-19 Guarantee Scheme amounted to €9.9 million (Dec 2020: €7.2 million), of which a maximum amount of €8.9 million (Dec 2020: €6.4 million) is considered guaranteed, though subject to an overall portfolio capping of €4.4 million (Dec 2020: €3.2 million).

The following is further information on loans and advances subject to EBA-compliant moratoria (legislative and non-legislative):

| | Gross carrying amount | | | | | | | | | |
|--|-----------------------|---|-------|---|-------|--|-------|--|--|--|

6. Fair values of financial assets and liabilities

The Group's financial instruments categorised as Investments within the Statement of Financial Position are measured at fair value. The Group is required to disclose fair value measurements according to the following hierarchy:

- Quoted prices (unadjusted) in active markets for identical assets (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset either directly i.e. as prices, or indirectly i.e. derived from prices (Level 2).
- Inputs for the asset that are not based on observable market data i.e. unobservable inputs (Level 3).

As at 30 June 2021 and 31 December 2020, investments were principally valued using Level 1 inputs.

No transfers of financial instruments measured at fair value between different levels of the fair value hierarchy have occurred during the interim period under review.

The fair values of all the Group's other financial assets and liabilities that are not measured at fair value are considered to approximate their respective carrying values due to their short-term nature, short periods to repricing or because they are repriceable at the Group's discretion. The current market interest rates utilised for fair value estimation, which reflect essentially the respective instruments' contractual interest rates, are deemed observable and accordingly these fair value estimates have been categorised as Level 2.

The valuation techniques utilised in preparing these condensed interim financial statements were consistent with those applied in the preparation of the financial statements as at and for the year ended 31 December 2020.

7. Dividends

| | 30/06/21 | 30/06/20 |
|---|----------|----------|
| Dividends (net) declared and paid by the Bank (€ 000) | 861 | 0 |
| € cent per share – gross | 3c0 | 0 |
| € cent per share – net | 1c95 | 0 |

On 27 July 2020, the European Central Bank ('ECB') issued a Recommendation on dividend distributions during the COVID-19 pandemic and repealing Recommendation ECB/2020/19 (ECB/2020/35), which inter alia recommended that no dividends be paid out by credit institutions until 1 January 2021 and that no irrevocable commitment to pay out dividends be undertaken by credit institutions for the financial years 2019 and 2020.

On the basis of this, during August 2020 the Board of Directors resolved to withdraw its recommendation of 23 March 2020 for the payment of a final gross dividend of 7 cent per nominal 25 cent share (net dividend of 4.55 cent for a total amount of €2,010,095) for the twelve months ended 31 December 2019.

On 15 December 2020, the ECB issued another Recommendation on dividend distributions during the COVID-19 pandemic repealing Recommendation ECB/2020/35 (ECB/2020/62), which encourages prudence on the part of credit institutions when deciding on or paying out dividends. In this respect, the ECB generally considers distributions exceeding the lower of 15% of accumulated profit for the financial years ended 31 December 2019 and 2020 and 20 basis points in terms of the Common Equity Tier 1 ratio to lack prudence.

Based on the above, during the Annual General Meeting of shareholders held on 28 May 2021 a final gross dividend of 3 cent (net dividend of 1.95 cent) per nominal €0.25 share, representing a final gross payment of €1,325,337 be approved was approved.

Statement pursuant to Listing Rules issued by the Listing Authority

I confirm that to the best of my knowledge:

- the condensed interim financial information, prepared in accordance with IAS 34 gives a true and fair view of the financial position of the Group and the Bank as at 30 June 2021 and of their financial performance and cash flows for the six-month period then ended in accordance with International Financial Reporting Standards as adopted by the EU applicable to interim financial reporting, IAS 34, 'Interim Financial Reporting'; and
- the Directors' Report includes a fair review of the information required in terms of Listing Rules.

Joseph Said, Chief Executive Officer
